

Machinery.

Index to Vol. 5.
September, 1898, to August, 1899.

1899.
THE INDUSTRIAL PRESS,
9 to 15 Murray St.,
New York.

Index to Volume V.

- About "How and Why"..... 54
Accuracy Required, Degree of... 246
Adjustable Hollow Mill..... 335
All the Way from China..... 74
American Society of Mechanical Engineers, The..... 135
American Society of Mechanical Engineers, The Washington Meeting of the 293
Among the Shops.....
National Cash Register Co., The, Dayton, O. 15
More Notes from the National Cash Register Company's Works 39
Notes from the Niles Tool Works, A. L. G. 116
Works of Fay & Scott, Dexter, Me., A. L. G. 148
Notes from a Newark Shop, Some 298
Notes from the C. W. Hunt Company's Works 329
Notes from Newark Shops 371
Apprentices, A Word About... 90
Apprentices, Notes for, Bell Crank 161
Apprentices, Notes for, Bell Crank 182
Automatic Hinge Machine, An... 266
Back Gears, Epicyclic 193
Ball Bearings, The Design and Construction of. C. H. Benjamin 69
Ball Bearings, Self-Contained 384
Bath Iron Works, Photographs from the. A. L. Graffam..... 272
Becker-Brainard Milling Machine Co., The 235
Belts, Quarter-turn 172
Bicycle Chains. Geo. H. Waltman 325
Bicycle Show, Some Notes Gathered at the Late, F. E. R. 224
Blacksmithing, Artistic. H. W. Sargent 334
Boiler Accident, A Peculiar. H. C. Fairbanks 89
Boiler Test, Starting and Stopping A. 175
Boring Long Holes 223
Brass Founding, A Talk on, Chas. Vickers 7
Brass Foundry Reminiscence, A. Chas. Vickers 154
Brass Foundry Reminiscence, Another, Chas. Vickers 300
Broaching Rigs, Home-made. A. L. G. 172
Bronze, Phosphor 340
Bursting of Small Cast Iron Fly-wheels, The 158
Calipers, Wooden Back. Olin Snow 41
Cam Cutting. Warren E. Willis 76
Capacity of a Steel Chimney, W. Wallace Christie 111
Castings on Shipboard, Making "Catching the Thread." 287
Center of Gravity, The (1). Benj. F. La Rue 12
Center of Gravity, The (2). 45
Check Nuts, Methods for Locking 20
Chief Engineer Milligan of the Battleship "Oregon." An interview with, F. F. Hemenway... 37
Chimney, Capacity of a Steel. W. Wallace Christie 111
Chucks, Magnetic 378
Chuck, Positive Driving..... 193
Commercial Advantage of the Oil Engine, The. J. A. Secor 304
Compensating Gear 196
Compound Traction Engines. Jos. B. Hall 140
Contraction, A Question of..... 287
Corliss Engine, The (1). A. H. Eldridge 101
(2) 141
(3) 180
(4) 205
Cylinder, Varnishing A. 202
Details, J. H. Francis 113
Derrick, A Powerful Lifting, D. A. Willey 143
Differential Levers, W. H. Sargent 75
Drawing Table, A Home-made, W. H. Sargent 8
Drill Press, Turret Attachment for 160
Drill, Knecht 384
Dynamometer, A Reciprocating. Education in China 374
Editorial.....
Beam Engine, The American... 82
Chains for Power Transmission. 338
Change of Associate Editors... 210
Criticism in the Shop 370
Contributions 274
Fire-proof Construction 306
Inventions 306
Manual Training Schools, by P. S. Dingey 146
Metric System, The, by John E. Sweet 114
Machine Design, Refinements in. "Oregon," The 14
Pushing the Work 211
Rotary Engines 50
Something for Nothing 338
Speeds and Feeds 274
Screw Threads, Inaccurate 242
Standard Bushings for Jigs..... 82

How and Why.

54. Action of the Armington & Simms' Governor	162
57. Air Compressor: point of opening of valves and mean pressure	194
61. Aluminum, To Solder	196
21. Bend Copper, Brass or Iron Tubes, To	65
40. Best Form of Screw Thread for Strength and Wear	100
89. Bevel Gear Blanks, To Set for Cutting Teeth	258
105. Bicycle Pedals, The Way to Thread	385
92. Bicycle Wheels, 28 and 30 Inch; Large and Small Sprockets	289
28. Boiler Compound, Effect from Using a	66
84. Can Leather Packing Be Trimmed in any Other Way Than by Hand	257
23. Calipers, Relative Advantag- es of Ordinary and Vernier	65
109. Casting Steel, Method of	386
77. Cells and Spark Coil, Direc- tions for Making	226
101. Changes in Valve Setting to Convert a Non-Condensing Corliss Engine into a Condens- ing Engine	350
73. Chord, Length of	226
102. Coal and Wood as Fuel, Comparative Value of	353
100. Comparative Back Pressure of Exhaust when Connected with Chimney and Exhausting into the atmosphere	353
88. Composition of Vulcanized Fibre	258
19. Corliss Valves, To Set	65
32. Coupling the Wheels of a Haulage Engine, Result of	66
95. Crank Disc, To Find the Balance Weight of a	290
52. Cutting Speeds for Cast Iron and Steel	162
66. Cylinder Rings, Rule for Turning	225

81. Deposit of Soot in Boiler Tubes and Chimney, Reason for and Remedy	257
31. Directions in Which an En- gine Will Turn	66
26. Efficiency of Chimney by Increasing the Height, Effect on	66
49. Effect of Reducing Size of the Line Wires Running to a Motor	130
83. Elevator Sheaves; Reason for Revolving at Different Speeds; 2. Steam Pump, Principle of Operation	257
6. Electrically Charged Machin- ery, Trouble from	30
71. Epicyclic Gears	225
12. Expansion of a Large and a Small Bar of Iron, Compari- tive Effects of Heat on the	32
41. Explanation of the Action of the Tube of a Steam Gauge	100
50. Explanation of the Three- Wire System of Electric Wir- ing for Incandescent Lighting	130
91. Field Magnet and Armature of Generator, Effect upon of Changing Wiring and Speed	260
47. Firing a Charge of Gas and Air in a Gas Engine Cylin- der, About	130
48. Figuring the Feed of Lathe or Screw Machine	130
56. Fly-Wheels, Proportions for	162
59. Force of a Blow; Force Re- quired to Break a Steel Shaft	196
106. Force Required to Press in Crank Pins	385
18. Friction Clutches, The Con- struction of	65
99. Friction on Rails of Truck Wheels of Different Diameter	324
68. Gauge Glass, Reason for Deterioration	225
24. Grate Area, Effect on Econ- omy of Changing	66
75. Hardening Steel	226

9. Holding Thin Pieces on a Planer Table, Method for	32
14. Horse Power of Shafting, Rules for the	34
94. Horse-Power of a Compound Engine, How to Find	289
108. Horse-Power of a Slide Valve Engine, To Calculate the	386
34. Inspection Limits for 14 inch Engine Lathes	98
78. Intensity Coil, To Make	226
45. a, b, & c., Information About Anti-Friction Metal; d, Books Upon Steam Engine Design	129
15. Large and Small Truck Wheels on a Railroad, Rela- tive Advantages of	34
62. Laws Relating to Dangerous Machinery	196
76. Leather Belt, Treatment of One That is Oil Soaked	226
65. Lining Up an Engine	225
90. Lining Up Steam Engines, Directions for	258
7. Melting Up Steel Scraps with Cast Iron, Result from	30
30. Method of Setting the Tool for Cutting Pipe Threads, Best	66
43. Method for Obtaining the Displacement of a Loaded Scow	129
2. Packing for Heavy Water Pressure, Best	30
87. Pattern for a Worm, To Make; 2. Angle for Worm Wheel Teeth	258
96. Petroleum, Chemical Pro- portions of	290
5. Pickling Brass Castings, About	30
25. Pistons that Crack, Trouble With	66
107. Pitch of a Propeller with a Two-Foot Rule and Level, To Determine the	385

2. Number of Inches of Water Corresponding to a Vacuum	386
67. Port Opening for High Speed Engine	225
1. Power Lost in Starting and Stopping the Water in a Dupli- cate Steam Pump	30
12. Pumping Air Into a Steam Boiler	34
33. Proportions and Materials for Small Worms and Worm Wheels	98
38. Pressure Required to Force a 9 inch Crank on its Crank Shaft	98
42a. Principle of the Planimeter, The	129
42b. The Principle of the Leith- gow Water Gauge	129
42c. The Development of a Con- veyor Helix	129
74. Pump Valves, To Set Those of a Duplex Pump	226
98. Radius of a Link, To Find the	324
53. Regulating the Feed from a Power Pump	162
39. Relative Effect Upon the Reversal of a Planer of the Pulley and the Weight on the Table	98
The Stress in the Gearing of a Planer	
103. Relative Value of Tin and Galvanizing to Prevent Rust- ing	353
29. Returning the Hot Gases Over the Top of a Boiler	66
86. Return Pipe for Heating System, Size of	258
37. Rule for Shade Lines on a Drawing	98
63. Safety Valve, Leaky	196
13. Scale from Ports of a Pump, To Remove	34
82. Scale from Forgings, To Remove	257
17. Sheet Zinc, To Blacken Pieces of	65

23890

1105769

79. Spark Coil, Dimensions and Size of Wire For Igniting Gas Engines.	226	93. Steam Pump Tests, About..	289	4. Templates for a Hooper, To Lay Out	30	64. Treatise on Axiometric and Isometric Projections	225
8. Speed of a Lathe Carriage, To Figure the	30	104. Stresses Produced by the Expansion of Iron	353	35. Time Required to Stop a High-Speed Pulley With a Strap Brake	98	85. Vacuum, How it is Measured, The Highest Obtainable Vacuum.	257
20. Spontaneous Combustion...	65	11. Suction of a Pump at and Above the Level of the Sea, Difference Between the	32	36. To Calculate the Horse-Power of a Gas Engine.....	98	72. Water Wheel, Weight of Rim and Use of Draught Tube	226
16. Small Steam Pipe and Restricted Ports, Effect of a.....	34	22. Table of Depths of Gear-Teeth	65	46. To Fit Piston Rings for a Gas Engine	129	97. Wattmeter, How to Read a; The Equivalent in Electric Lights of Gas Jets, etc.	290
44. Solution to Keep Polished Steel From Rusting	129	69. Taper Turning	225	53. To Shorten the Travel of the Main Rod of an Engine.....	162	27. Wetting Coal Before Burning, Result of	66
10. Steam Packing for Use Where There is Vibration of the Valve Stem.	32	58. Temperature Resulting from Mixing Water of Different Temperatures.	194	55. To Cement Emery Cloth on Cast Iron	162	3. Yellow Stains from Bright Parts of Machinery, Removing	30
